### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

As to the Independent Claims, in addition to:

Applicant's amendment amending Independent Claim 18 to overcome the prior art,

Independent Claims 1 and 11, directed towards a method for transferring data using a field programmable gate array (FPGA) and a field programmable gate array (FPGA), contain the following features which taken in combination with the remaining limitations of the independent claims are not found in and or are not obvious in view of the prior art of record,

**Claim 1,**

*"retrieving a first set of data" and "transferring the first set of data from the first storage element directly to a second storage element on a configuration bus of the FPGA; and transferring the first set of data from the second storage element to a second section of the configuration memory of the FPGA";*

**Claim 11,**

*"a destination frame address register configured to store a destination frame address that identifies a destination section in the configuration memory; a command register configured to receive a copy configuration instruction; and configuration logic configured to transfer data from the source section to the destination section in response to the copy configuration instruction in the command register".*

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen Elmore whose telephone number is (571) 272-4436. The examiner can normally be reached on Mon-Fri from 9:30-6:00.
